

# Nature Scavenger Hunt - Park Edition

## How to Use These Cards?

Print and cut the checklist and photo clue cards; keep them on a ring or in a small pouch.

When calm, show the cards and say: "Let's explore the park and see what we can find."

Let your child choose what to look for first. They can point, observe, or compare their find with the picture—no collecting needed.

Use photo clue cards for tricky items; they help your child check their own work.

Pause to notice colors, shapes, sounds, and textures. Ask simple questions like:

"What do you see?" or "Does it match?"

Follow your child's curiosity; they don't have to finish the whole list.

End by reflecting together: "What did you enjoy finding today?"

Remind gently: Look, match, observe — and leave nature where it is.
